

PH SERIES

SCISSOR LIFTS

Robust scissor lift machine.

The Cantek PH series scissor lifts are strongly built with a massive steel frame that provides maximum durability and is capable of lifting up to 4400 lbs. It is hydraulically operated and controlled by a foot pedal for operator convenience. The PH36-2 is adjustable in height from 12" up to 59" and the PH48-2 is adjustable in height from 14" up to 71". It is ideal for staging material for feeding into various woodworking machines like sanders, glue spreaders, panel saws, rip saws, and more.

Key Advantages.

- 4400 lifting capacity
- 3' x 6' (PH36-2) / 4' x 8' (PH48-2) deck size
- 12" to 59" (PH36-2) / 14" to 71" (PH48-2) lifting capacity
- Robust welded steel frame
- Powerful 2HP hydraulic motor for raising & lowering the scissor lift
- Convenient foot pedal operation

Specifications.

	PH36-2	PH48-2
Deck Size	35" x 71" (900 x 1800 mm)	47" x 94" (1200 x 2400 mm)
Lowered Height	12" (300 mm)	14" (350 mm)
Raised Height	59" (1500 mm)	71" (1800 mm)
Travel	47" (1200 mm)	58" (1470 mm)
Motor	2 HP	
Capacity	4400 lbs (2000 kgs)	
Electrics	115 Volt – Single phase
